

Creekside Park Opening

On October 11, Sandy City opened its newest park. Creekside Park is located at the corner of Riverside Drive and 9400 South on the east side of River Oaks Golf Course. Sandy City wanted to provide a park that would meet the needs of the surrounding neighborhood and to maximize the use of the land available. Amenities at Creekside Park include a new walking trail, interpretive signs, perimeter fencing, a playground, shaded benches, a drinking fountain, landscaping, and a climbing wall. The Natural Resources Conservation Service provided grant money to make this project possible.

Sandy City's newest park, located near the River Oaks Golf Course

Sandy Promenade Wetlands Center

The south end of the Sandy Promenade has been a designated wetland for years, yet has had little public access. However, federal funding has made possible recent improvements to the natural area, allowing Sandy residents to use the natural area as an educational tool. Now families, scout groups, classes, and other parties can take advantage of Sandy's "outdoor classroom" located on the north side of the habitat. This area includes walkways, signage, viewing platforms, and a small amphitheater allowing park patrons to learn about the wetlands and overlook the water feature. This is a great getaway, preserving nature right in the heart of the commercial corridor.

Granite Trail Head Completed

Granite Trail Head, located at 3470 E Cottonwood Road, was completed in the Fall of 2006. Thanks to the generous help and hard work of contractors and volunteers, the much needed access to the Bell Canyon Reservoir is now complete. Amenities at the trail head include a new restroom with drinking fountains and 22 parking spaces. The trail will be open for the Spring of 2007 and includes access to the Bell Canyon Waterfall. This project was made possible by grant funding and with the cooperation of UDOT. ▲
